### **GERMAN LINE GIVES GROUND** BEFORE THE BRITISH TROOPS, BUT ROLLS BACK THE FRENCH

Gen. Sir John French Reports Capture of Hill No. 60 and Loss of Four Airships by Germans in Three Days.

LONDON, April 20.-Sweeping claims of material gains in the Ypres region are made by Gen. French in his official report to the War Office made public to-day. Gen. French makes no specific mention of the gains of the British troops, but correspondents on the field in France declare the English forces have broken through the German trenches for a distance of three miles and are now fighting on the open ground.

No mention of this battle is made in the official reports to-day from Berlin and Paris. The Germans and French confine their comment to struggles in the Argonne, around Solssons and Rheims and in Alsace. In the German report yesterday it was claimed that the British had been "ejected from minor German positions still occupied by them" south of Ypres. "British attacks along the railroad between Ypres and Comines broke down, with very heavy losses to them." said Berlin report of yesterday.

Gen. French's report mentions the capture of Hill No. 60, to the west Wartelene. Both belligerents lost many men. The British commander RATE reports increased activity among the heavier-than-air services and as a stimulus to trading. For every sling triangle which had given Wilsays that four German aeroplanes were brought to earth within three days.

Ex-President Admits He Gave Out Statement and Undertakes to Uncover All of Barnes's Activities at Albany.

#### IVINS OBJECTS TO COLONEL'S CLIMB UP SAN JUAN HILL.

(Special From a Staff Correspondent of The Evening World.) COURT HOUSE, SYRACUSE, N. Y., April 20.-By sudden shift of the tide of battle this afternoon Theodore Roosevelt was placed on the witness stand at the call of counsel for William Barnes, who is suing the ex-President for \$50,000 damages for libel. There was a technical question raised concerning the identity of William Barnes, whether the plaintiff was the same man named in Roosevelt's published statement. It was the plan of the defense to force Barnes on the stand, but Mr. Ivins

cleverly turned the tables and called Mr. Roosevelt to the stand instead. "Did you write the article in question of and concerning William Barnes, the plaintiff in this case?" he asked.

"I did," replied Roosevelt vehemently and emphatically.

That settled the point without further debate. Then Roosevelt's own isel took him in hand and started a long line of exam main issues of the case on trial.
